

HUGE SAVINGS ON RUNNING COSTS AND CO₂ EMISSIONS WITH BRAEMAR DUCTED GAS HEATING

Braemar brings you the highest star rated conventional ducted gas heater on the market - Braemar **7 star equivalent***!

Braemar's 7 star* ducted gas heater brings you energy efficiency and savings that are out of this world, but won't cost the earth!

Savings per year (running costs)

Braemar 4, 5, 6.8 star equivalent* and 7 star* ducted gas heaters vs 3 star#

Installing a 7 star* instead of a 3 star ducted gas heater will save approximately \$577 per year in running costs!#

CO₂ emissions savings per year (tonnes)+

Braemar 4, 5, 6.8 star* and 7 star* ducted gas heaters vs 3 star#

Installing a 7 star* instead of a 3 star ducted gas heater will save 1.99 tonnes of CO₂ per year, which is equivalent to taking a small car off the road for a year!^

*Star rating equivalent. Based on Australian Gas Association's calculated tests.

#Data is based on: • Gas price = 1.6 c/MJ • House Size – 241 m² x 2.4 m ceiling height • Operation hours per year • 600 hrs (100 days at 6 hrs per day) – based on AS4556-2011. House Heat load – 0.2 MJ/h/m³ – based on AS4556-2011 • Annual Energy Consumption (AEC) for different star rated heaters based on AS4556-2011. 3.0, 4.0, 5.0, 6.0 star rated ducted gas heating systems.

^ CO₂ emissions from small car based on: Table 15, "Carbon Emissions from New Australian Vehicles 2011 Information Paper", National Transport Commission Australia Calculation assumes an annual travel distance of 7900 km/yr.

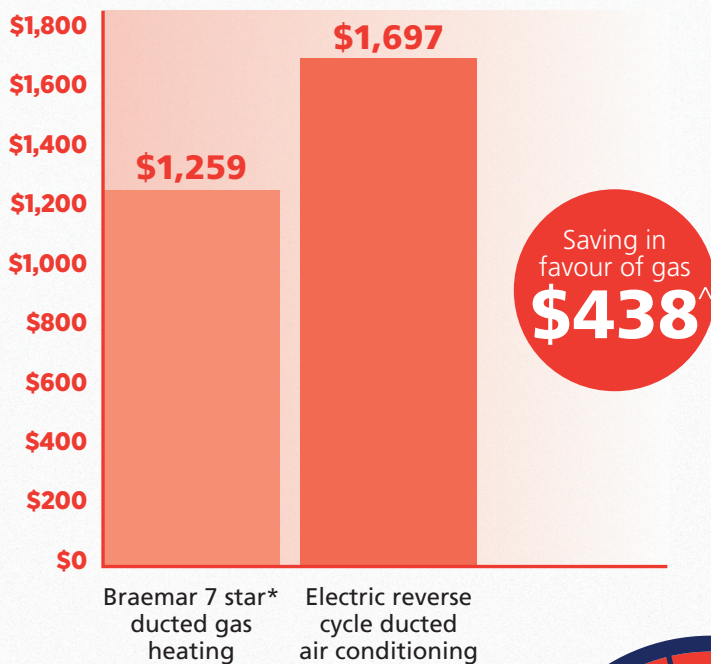

+ CO₂ emissions based on Australian Government Department of Climate Change and Energy Efficiency – National Greenhouse Accounts Factors July 2012.

Distribution: Limited to supporting dealers.

Note: These figures may vary for individual situations due to variation in factors such as gas price, house size and insulation, heater usage patterns etc.

HUGE SAVINGS ON RUNNING COSTS WITH BRAEMAR DUCTED GAS HEATING VS REVERSE CYCLE HEATING

With energy prices rising, ducted gas heating has the edge on reverse cycle when it comes to both efficiency and performance, and even more so now with **the world's first 7 star equivalent* ducted gas heating from Braemar.**

Braemar's 7 star* ducted gas heating is **the cheapest whole of home gas heating available** in Australia, **saving you up to \$438 per year** when compared to a ducted reverse cycle heater.[^]

braemar.com.au

*Star rating equivalent. Based on Australian Gas Association's calculated tests.
^Seeley International's calculation, using publicly available data (2013) adjusted to the Braemar 7 star equivalent ducted gas heater, compared to an electric reverse cycle ducted air conditioning system with COP of 3.4, for a heated area of 250 m². Based on 900 hours running per year. Peak electricity tariff – 27.7 c/kWh. Off-peak electricity tariff – 16.6 c/kWh. Marginal natural gas tariff – 1.50 c/MJ. Actual costs for your house will depend on the area heated, how long you run the heating for, your thermostat settings, how well insulated the house is, your energy tariffs and your local climate.
