Gas space heaters and wall furnaces, ultra-efficient heating
“Seeley International never stops striving to innovate and build the world’s most energy efficient heaters and air conditioners.

It is this commitment to excellence that’s at the heart of everything we do.”

Frank Seeley AM FAICD
Founder and Executive Chairman

Award Winning Company

Seeley International consistently wins awards each year for new product design, innovation and the environment.

Recent awards include:
Why Braemar?

For more than 50 years Braemar has been providing Australian families with world’s best, most energy-efficient cooling and heating products and has cemented its reputation as a trusted and innovative Australian brand.

- Uncompromised product quality and reliability
- 50 year history of excellence
- 2 year comprehensive warranty
- 10 year heat exchanger warranty
- Australian made - a wise Australian buys Australian!

Don’t put your family’s health at risk by using unflued portable heaters – use Braemar flued heaters for safe heating!

Why Braemar gas space heaters and wall furnaces?

Braemar has a range of gas space heaters and wall furnaces to suit any sized room, in a variety of configurations.

- Leading-edge technology ensures maximised energy efficiency and savings in running costs
- Super-efficient and economical heating with 4.8 star Braemar Eco-Superstar space heating
- No emissions inside with ultra-safe flued heating
- Quiet operation
- Ultimate comfort combined with stylish design
- Flexible installation options
- Lowest CO₂ emissions*

Braemar gas space heaters

Braemar Eco-Superstar’s power flued gas space heaters boast an amazing 4.8 star gas energy rating – saving you money on running costs.

Ultra efficient power flued heating

Power flued space heating is one of the most economical forms of heating and Braemar Eco-Superstar space heaters are among the highest star rated products.

The energy efficiency of gas heaters is measured independently, and awarded star ratings. The higher the star rating, the more energy-efficient the heater is. The more energy-efficient, the more you save on running costs.

This is why Braemar Eco-Superstar space heaters have in-built technology to ensure they maximise their energy efficiency to an incredible 4.8 stars.

Sized to suit you

Braemar Eco-Superstar space heaters are available in two sizes to meet your heating needs:

- The SH18 unit heats up to 62 m²
- The SH25 unit heats up to 85 m².

Consult your local Braemar specialist to discuss the heater that best suits you.

Features and benefits

**Standard:**
- Overheat safety switches
- Thermostatic temperature control
- Self diagnostic control system
- Cool-to-touch cabinet
- High/low gas rates
- Pre-heat function
- Soft-air function
- Economy mode
- Child lock
- Inbuilt and console models
- Power flue
- Natural and propane gas
- High/low fan speeds
- Electronic ignition
- Electronic flame sensing

**Optional:**
- Remote control
  - full 7 day programmable timer
- Rear register kit

Remote control

Rear register kit

2 YEAR COMPREHENSIVE WARRANTY + 10 YEAR HEAT EXCHANGER WARRANTY
The superior technology built into the Braemar Eco-Superstar’s range of power flued gas space heaters make Braemar the ideal choice in room heating – offering the ultimate in comfort combined with stylish design.

Braemar wall furnaces

Braemar’s wall furnace is Australia’s most attractive and functional. Its slim-line design makes it as discreet or as visible as you like, and with a stunning ‘Ivory Sands’ finish, it complements any decor.

Sized to suit you

Braemar wall furnaces are available in three capacities, to suit your lifestyle needs.

**Braemar Eco-Superstar WF25**
An ultra-efficient furnace with an impressive 4.8 star rating, the WF25 heats up to 85 m² and is a perfect solution for those wanting super-efficient and economical heating.

**Braemar Ecostar WF30**
The WF30 is an ideal replacement for existing wall furnaces and is able to heat up to 90 m².

**Braemar Ecostar WF40 (mainly commercial applications)**
The WF40 will heat an approximate area of 80 - 110 m² and is recommended for light commercial or large domestic applications such as halls and large rumpus rooms. It is not generally recommended for normal domestic applications due to the higher air flow rates.

Option to heat two rooms

An optional rear register kit means an adjoining room can also be heated, which effectively gives you two heaters for little more than the price of one.

Replace an existing wall furnace

Braemar wall furnaces are ideal for replacing existing wall furnaces, including the following models:
- Braemar D11/D12/D45/D55
- Vulcan Series 20/22/Quasar
- IXL 10862
- Convair Finesse Range

Please note: Additional kits may be required. Not suitable for direct replacement of fully-recessed models installed into double-brick walls.
Features and benefits

**Eco-Superstar WF25**
- Overheat safety switches
- Thermostatic temperature control
- Self diagnostic control system
- Cool-to-touch cabinet
- High/low gas rates
- Pre-heat function
- Soft-air function
- Economy mode
- Child lock
- Inbuilt and console models
- Power flue
- Natural and propane gas
- High/low fan speeds
- Electronic flame sensing

*Optional:
- Remote control - full 7 day programmable timer
- Rear register kit

**Ecostar WF30 and WF40**
- Overheat safety switches
- Thermostatic temperature control
- Cool-to-touch cabinet
- Modulating gas rate
- Pre-heat function
- Inbuilt and console models
- 3 speed 240 V electric fan
- Boost setting for rapid initial heat
- Set-and-forget automatic fan speed control
- Pilot ‘on’ indicator gauge
- Natural and propane gas

*Optional:
- Rear register kit
